## User manual

### CONTROL

- 1) Plug the main box into the mains using an adaptor.
- 2) Insert one end of the plastic hose into the motor, connect the other end to the masturbator.
- 3) Press the red button on the back of the box to start.  
There is also an input for possible use of a USB cable, for example to connect your mobile phone where you are currently watching your favourite porn.
- 4) Use the "power" button on the remote to control the gears, the buttons marked + and - to select the speed. 5) Speed selection is only possible with stage 1, programs 2 - 9 offer unpredictable intervals for the most random and therefore realistic smoking that will surprise you and your manhood.
- 6) After inserting your penis into the sleeve, you no longer need to use your hands and can indulge in the pleasurable sensations...
- 7) After use, just turn off the main button on the box.
- 8) Disconnect the feeding tube, the masturbator and the power supply.

### MAINTENANCE

After each use, remove the inner sleeve from the masturbator by rinsing with lukewarm water. You can also use an [erotic cleaner](#), which also helps to remove microscopic dirt. Simply spray the product, leave it on for about 1 minute and then dry with a towel or cloth that does not leak fibers.

### WATERPROOF

**The masturbator is not waterproof, nor waterproof, it means you must not splash water on it and you MUST NOT DIVE IT INTO THE WATER!** The sleeve can be removed from the masturbator and washed in water.

### LUBRICATION

Use only [water-based lubricants](#). Other lubricating gels could damage the surface of the aid and it could become sticky.

### DRIVE AND CHARGING

The masturbator is powered from the 230 V mains.  
The remote control is powered by a CR 2032 battery.

### STORAGE

Store separately from other erotic aids in a dry and dark place.
